DESIGN & DRAFTING

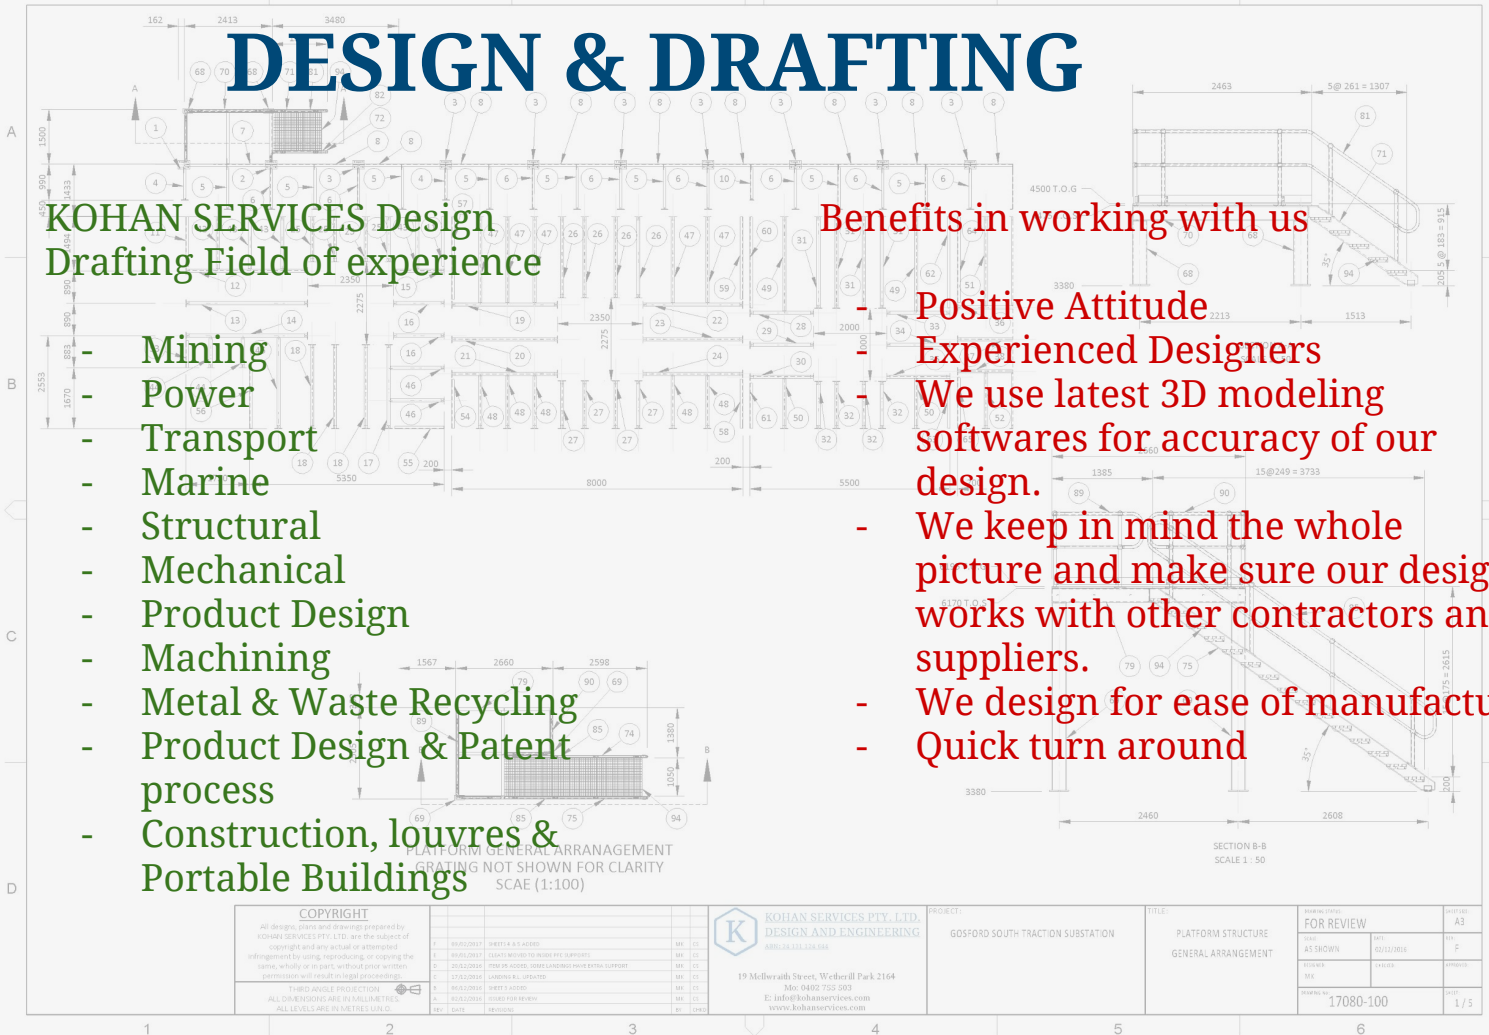

KOHAN SERVICES Design
Drafting Field of experience

- Mining
- Power
- Transport
- Marine
- Structural
- Mechanical
- Product Design
- Machining
- Metal & Waste Recycling
- Product Design & Patent process
- Construction, louvres & Portable Buildings

Benefits in working with us

- Positive Attitude
- Experienced Designers
- We use latest 3D modeling softwares for accuracy of our design.
- We keep in mind the whole picture and make sure our design works with other contractors and suppliers.
- We design for ease of manufacture
- Quick turn around

Services we provide

- Product development from feasibility study to production.
- Design from market reviews and research results
- Drafting and detailing from Architect's drawings
- Conversion of old hand drawn drawing to Autocad files
- 2D drawing to 3D Models
- Provide Bill of Materials
- Material Cut lists / fabrication drawings
- 3D Isometric views / section views for clarity of the project
- Presentations for Clients to show the concept for the whole project.
