Kohan Services Transportable Buildings

Equipment Buildings & Comms Huts:

Kohan Services specialises in Design, Engineering and Manufacturing of Small to medium size transportable Equipment Building & Communication Huts.

Benefits of Portable buildings over traditional buildings

- Building can be specifically designed to suit the project needs
- Using new technologies buildings can be more insulated and thus energy use to keep the optimal room temperature will be reduced.
- Having building prefabricated and fully fitted with all the equipments will reduce site installation time and cost.
- It will reduce commissioning time and cost.

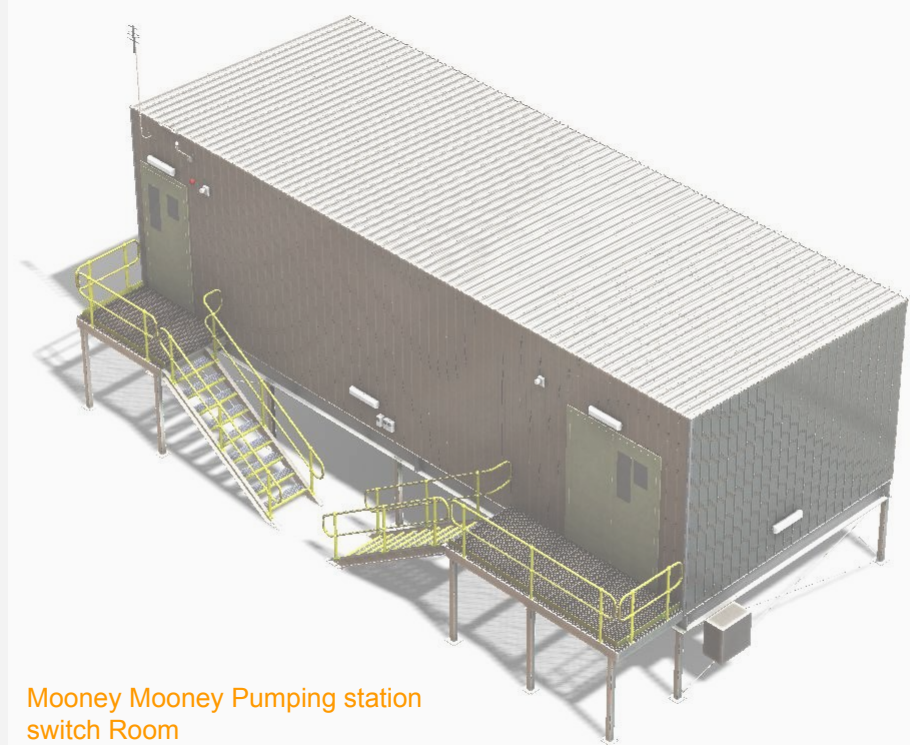

Kohan Services Transportable Buildings

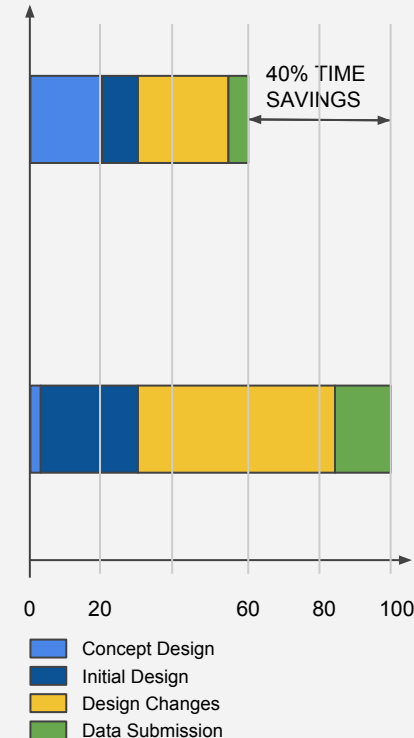

Switch Rooms and Control Rooms:

Kohan Services has taken on numerous Design, Engineering and Project management of Fire Rated Switch Rooms for Central Coast Council.
