Design, Engineering, Manufacturing & Project
Management

We are Kohan Services

What do we KNOW about Mould Design?

We are people who designed suspended, Modular & reusable moulds for Narrabeen Bridge refurbishment project.

Project Challenge

Successfully Transported a 94m long Pre-Stressed beam frame from Brisbane, QLD to Riverstone, NSW for Hanson Precast.
We also designed the Moulds for 18M long pre-stressed beams to be used in the same Frame.

Another Milestone we achieved
Designed & Manufactured Norwest Train Line Surface
stations platform Moulds.

Project duration:
12 Weeks

Project Value:
\$180,000

Getting interesting?
Want to know more?
